An annual celebration of perseverance
and family dedication!

Euro-Pēds® National Center for Intensive Therapies, established in 1999 as the first intensive pediatric physical therapy provider in North America, has helped 1500+ children and young adults with neuromuscular disorders of all levels learn new skills to improve mobility, self-esteem and independence.

The Euro-Pēds® Foundation (EPF) raises funds and disburses treatment and travel grants to families of children with gross motor disorders in need of financial assistance for specialized, intensive physical therapy at Euro-Pēds National Center for Intensive Therapies. EPF believes every child deserves a first step.
